D Burgs 300th Birthday Parade
Current mood: 😊 cooky/wacky
Category: [Life](#)

Looked like someone was watching over D Burg last Saturday. The forecast was not just rain but thunder storms, hardly great weather to celebrate a 300th birthday. However, the rain and thunder stayed away until night fall, leaving us with more than acceptable conditions to hold a parade. The turn out this year was great all sorts of fine D Burgians out and about. Here are some pictures of the grand parade, courtesy of one of D Burgs Finest. Sorry I couldn't take them myself I was drunk on my front lawn. Enjoy!

Here we have the first woman ever born in D Burg. Look she even got a trophy for it. Congratulations!

The prospect Drum Corps even came down to celebrate, but sadly they forgot the drums.

A lot of fine floats in the parade this year. I am not sure what this one was? I do know that the kid on the left wants off.

This jerk is from the CCTC, more commonly known as The Corn Colored Teeth Coalition. Welcome to D Burg!

Chester Cheetah was pumping his fist, and pointing at the locals during the festivities, rep'n Frito Lay. Fat locals know, it aint easy bein cheesy. I wish he would have gotten hit by a fire truck.

Not sure about this one either, maybe some new age super heroes? I do know that the chick on the left has some heavy saddle bags, no?

Here's Tanker the Fire Prevention Dalmatian. Bet that shit isn't flame retardant.

Here's another float that's kinda odd. Seems the Ninja Turtles are towing the planet? Wheres Splinter?

Here we have a guitar playing bumble bee. Look in the background at the load in pink. "Oh my god is that a guitar playing bee?"

The Dell kid even showed up.

Even NAMBLA had a float!

Darth Vader, a pirate, and an ape. Not sure why they came?

Other than for the ape to show off his pumas.

They came out from the bushes to show love for D Burg.
Thanks Mom and Dad.

So ofcourse i am to check out this blog because i was not present for yet another D-Burg Festivity. But please, let it be known that with your pictures and comments i have realized that i DID miss out an alot.....alot of laughs. The pic of the couple...CLASSIC!!!! Darth Vader, a pirate, and an Ape with Pumas...can you even go wrong there??? I think not. Now, as for the Prospect Drums Corps.....they did bring 1 drum, only thing is, the woman to the right of the photo stuffed it down her pants giving the illusion that she has a Gunt (GUT/CUNT) AKA F.U.P.A. (Fat Upper Pussy Area) and honestly the young D-Burgian children do not seem thrilled about it...at all!! Well, i just want to say thank you for posting this because it def. made my day and made me realize how much i love this little "slice of heaven" we call....D-BURG!

NAMBLA float! OMG too funny.

The saddlebag girl has a long way to go before she gets her official D-Berg saddlebags. If she keeps up the good work and keeps eating in town, she too can turn those "love handles" into love shelves. O'Doyle rules!!!!

My guess: it was from the 3way he had with the couple in the last photo, but it may not be a hickey . It very well could be a burn from her cigarette.
